Public User List (For members only)

Posted by crystalcross - 01 May 2011 15:50

_____

We've added a new feature. Under the "Profile" tab on top you can now find a list of members on this system so you can add more connections. If you do not wish to be included in this list , simply go to your profile, select "Edit" and "Update your profile"

Once there, on the "Personal" tab you will find a check mark at the bottom for "Public Profile List" simply uncheck that and you will no longer appear on the list.

While you're at it, please also update your address information. We will be having some drawings soon for G&H Gear, and you'll need a valid address and phone to qualify and be able to win the drawing. We will announce more on this in the upcoming week.

Thank you!
