EVP

This EVP was from the night in Strasburg (4/11/12), where the police had come over to the home we were investigating.

you hear one of our investigators ask the officer to enforce his authority, next you hear the first officer "say respect my authority" in a weird voice.. then lastly you hear the other officer ask him to turn on the lights (k-2) then a "yes" "we will" comes through at 1:03-:05 seconds. the officers were too nervous to come past the dinning room in ht home, which is by the front door.. lol
