I actually do not hear died..

but in the same voice that said yes, it sounds like it said several words I just cannot make it out (in seconds 0:08-0:16) its all very quiet almost the same as the background noise... I think there is a lot more said than that, just the mic noise, i think may be muffling some of it.

Sounds more like "He saw us" instead of died. Also, after the girls voice says "yes", almost sounds like "just answer them"

There is definitely more said than just yes, it sounds like a sentence but I can't make out what it is saying. Good catch guys!
