Took this evp without the spirit box. This is the first one I have ever experienced that was so clear I barely had to enhance it at all. I believe it says: "she misses you" I was telling anyone who wanted to follow me to another location I would use the 'spirit box' there.

Pretty cool! I'm going to have to make me one of those.

Got this 'without' the spirit box, just the digital recorder.

Oh wow, sorry I read that wrong. That's amazing!

That's one of the clearer EVP's I've heard in a while. When I heard it I thought sure it was via the spirit box. That is wild.

Very nice!

I know, it was such a validating moment. Really makes me happy to be involved in this sort of thing
