Reviewing older footage

Posted by www.beyondbeliefparanormal.co.uk - 05 Jun 2011 21:13

Quality, found the old footage in a church of humming then followed by a strange woman cackling, Cleaning up and putting on sound cloud, will be on there in a short while

You may want to mention that people should click on your profile and then click the "SoundCloud" tab to listen to it. It may not be easy to find without that.

Look forward to hearing it. Also look forward to seeing some investigation footage with your new gear. You always tend to have very active investigations, great to watch.

Looking forward to it. Post the investigation on the calendar, so that everyone has something to look forward to. And you may also want to post when you'll have the reveal to show your evidence.
