_____

I feel like no ones here anymore what has taken place. Rob when are you going to have an event and where is it going to be ? I have a great Idea who is up to going to Wickland Plantation in KY. For an investigation its a great place and is it haunted you decide I took this picture a few weeks ago. If not there how about Watersmeet MI. The Paulding Lights and the haunted copper mines will be going in the middle of June alone with John Tenney. I got some great data last year hope to get more this year the kind people dream about. The lights are always on but there is much more to this place . I hope to see more people post things here this is a great site for Ideals rather you agree with all the comments or not isn't the issue.The purpose is to open your mind up . There is no right or Wrong to the paranormal.
