Edrut,

Keep following the Paranormal 101 articles, and once you feel ready to go for an investigation let me know. You'll need something to record EVP's, and of course a destination that you have permission to access. Also a video recorder would be helpful.

We will help you once you're ready. To start with you may want to find some haunted locations, and perhaps just start with setting up surveillance. Looking forward to working together.

We're still looking for investigators or investigation agencies who may be interested in working together to bring live broadcast of your explorations.

From Spain you know that you can count us and of course we are happy to share with you materials or stories. A big hug to all
