I know of a paranormal group in Melbourne; are you part of that group?

Steve, we're not currently a member of a paranormal group. I've thought about it many times, but don't have the time needed to become part of a official group. We investigate but as the time permits. I've got strong backgrounds in all the tech aspects of investigation and am more of a support team.

Also especially now that G&H was formed, I do not wish to tie to any one single group, as it may make other groups more reluctant to come join. We have several great groups represented on here, obviously one of the more active ones is "The ParaTravellers" which we're very grateful for. But I also want to remain open to all groups. After all this is a community site, and the power of the community is diversity.

I understand CC; you are this site's paranormal boot camp trainer. I'm glad I stumbled onto the site.
