Interesting Photo Taken with Trail Camera

Posted by MinnDak Paranormal - 16 Nov 2011 04:53

_____

These photos were submitted to my team for analysis. I have done some enhancing on the night photo so that what were are looking at is a little more visible to the naked eye. I then overlaid the two photos and saved them at different levels, either more toward day or toward the night photo. The title of the photo tells the difference between the two photos. To see the original photos, please visit our website. Let me know what you think. Thanks!!
