Was going through the mounds of recordings made by the static camera on Halloween night.

After everyone had left I thought for a moment I saw a cat in one of the frames where claims were made of a ghost cat appearing from time to time.

Sure enough in reviewing the video, I found the spot where I saw something. This video at index of about 1 minute 40 seconds in is where I saw it.

Rob, where were you looking? I saw at like 1:15 someone on the right side of the doorway and at like 1:38ish something on the left of the doorway but I'm not sure if you're looking at those.

I'll try to crop, enlarge, and repost the portion I'm talking about.

I think it was closer to the 2 minute mark. And if you look at the bright white area in the doorway, you'll see it on the bottom right of the bright area. That's a glass doorway leading to a warehouse area of the building. That area is sealed off from the rest o f the store and has no traffic, although at the time this was recorded there was no traffic anywhere since it was closed up and locked down.

I reviewed the video and at 1:15 I see a cat emerge and walked to the right of the doorway in the back of the room where there is light. I had to rewind it a few times to be make sure I saw something.

_____

That definitely looks like a cat come from right to left of the door then turn around and go back out of view to the right
