It's also nice to be able to discuss those questions, topics and not be frowned upon by those who prefer to ignore what they do not understand. They choose to deny it's possibilities. It a bit sad. There is so much out there to learn about. I'm glad there are so many terrific people to talk to.

Keith:

I wonder what would happen if one were to get themselves completely deprogrammed from the years of mind sewage that we've been inundated with and focused their attention on a subject such as this.

I also wonder what getting deprogrammed would do for our entire being and also to all of those crystals in our head. Hmmm. Those crystals in our heads are there for a reason.
