Paranormal Poll Results

So, I just went into the current Paranormal Poll and looked at the results. I'm am amazed but yet glad to see that the EVP results are actually winning out by a large factor over all other evidence types.

I've always had a bit of a love for EVP's myself. Interesting results. Love the polls because it gives us a chance to see what the general opinions are.

If you haven't taken it already, make sure to respond to it on the front page.

I have probably 1500 photos and maybe 20hrs of audio, nothing from the pics but neat looking pics, from the audio i have 5 very clear evp's and have only reviewed maybe 10hrs, so I am focusing my buying toward audio equipment in the future.

Good evps are great because they are a little more indisputable in my opinion.
